Independent auditor's review report on the interim condensed consolidated financial statements to the shareholders of Saudi Telecom Company

(A Saudi Joint Stock Company)

Introduction:

We have reviewed the accompanying interim condensed consolidated statement of financial position of Saudi Telecom Company - a Saudi Joint Stock Company ("the Company") and its subsidiaries (collectively referred to as "the Group") as at 31 December 2020, and the related interim condensed consolidated statements of profit or loss and comprehensive income, for the three months period and the year ended 31 December 2020, and the related interim condensed statements of cash flows and changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review:

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily to persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion:

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 endorsed in the Kingdom of Saudi Arabia.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) 31 DECEMBER 2020 (CONTINUED)

(All amounts in Saudi Riyals thousands unless otherwise stated)

2- BASIS OF PREPARATION

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" that is endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by the Saudi Organization for Certified Public Accountants ("SOCPA").

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements in accordance with International Financial Reporting Standards and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2019.

3- THE GROUP'S ACCOUNTING POLICIES

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2019.

The below accounting policies were applied during the year 2020:

3-1 Shared-based payment transactions:

The Company's executive employees receive remuneration in the form of share-based payments under the employee long term incentives program, whereby employees render services as consideration for Company's shares (equity-settled transactions). The cost of equity-settled transactions is determined by the fair value of the equity instrument at the grant date. The grant date is the date on which the Company and the employee agree on the share-based agreement, so that, a common understanding of the terms and conditions of the agreement exists between the parties.

Share-based payment expense is included as part of employees benefits expense over the period in which the service and the performance conditions are fulfilled (the vesting period), with the corresponding amount recorded under other reserves within equity in accordance with the requirements of the International Financial Reporting Standard (2): Share-based Payment. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of shares that will ultimately vest. The expense or credit in the consolidated statement of profit or loss for a period represents the movement in cumulative expense recognised as at the beginning and end of that period.

3-2 Treasury shares:

Own equity instruments that are repurchased (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in the consolidated statement of profit or loss on the purchase, sale, issue or cancellation of the shares. Any difference between the carrying amount of the shares and the consideration, if reissued, is recognised in other reserves within equity.

3-3 Investment properties

Investment properties are non-current assets (land or building - or part of a building - or both) for the purpose of earning rental income or capital appreciation or both. The investment properties are not for sale in the Group's ordinary course of business, or for use in providing services or for administrative purposes.

An Investment property shall be recognized as an asset when, and only when it is probable that the future economic benefits that are associated with the investment property will flow to the Group, and the cost of the investment property can be measured reliably. Investment properties are initially measured at cost, including transaction costs. Subsequently, they are measured using the "cost model", which is the cost less accumulated depreciation and any accumulated impairment losses. Except for lands, as it is not subject to depreciation.

Repair and maintenenace costs that do not increase the life of the asset significantly are recognised in the consolidated statement of profit or loss as incurred.

(All amounts in Saudi Riyals thousands unless otherwise stated)

3- THE GROUP'S ACCOUNTING POLICIES (CONTINUED)

3-3 Investment properties (continued)

Investment properties are derecognised when they are disposed of (that is, on the date of losing control over them) and no future economic benefit is expected upon disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in the consolidated statement of profit or loss during the period of disposal.

Transfers from / to investment property to / from property and equipment are made only when the company changes the purpose of using the property.

The Group appoints an independent external valuer accredited by the Saudi Authority for Accredited Valuers (Taqeem) to obtain the fair value estimates of investment properties for the purpose of determining if there is an impairment and also for the purpose of related disclosures in the consolidated financial statements of the Group.

10- ASSETS HELD FOR SALE

On 26 March 2019, Uber Technologies ("Uber") signed an assets purchase agreement with Careem (the Group holds a direct share of 8.88%) to acquire the net assets of Careem for about SR 11.6 billion (equivalent up to USD 3.1 billion) subject to modifications.

The total financial consideration of the agreement consists of the following:

- About SR 6.4 billion (equivalent up to USD 1.7 billion) of convertible bonds, unsecured and without interest.
- About SR 5.2 billion (equivalent up to USD 1.4 billion) in cash.

The acquisition was completed by Uber on 2 January 2020 after obtaining the approval of most of the regulatory authorities in the relevant countries with a holdback of an equivalent of 25% of the deal value until all regulatory and indemnity requirements accomplished. The impact of this acquisition on the Group's results from the sale of its direct investment in Careem was recognised during the first quarter of 2020 that resulted in a profit of SR 496 million (equivalent to approximately USD 132 million) excluding the holdback.

Based on the information received by the Group during the second quarter of 2020 related to the holdback amount that is related to regulatory, tax and indemnity requirements necessary to finish the acquisition deal, the Group has assessed the recoverability of the holdback amount and recognised an amount of SR 152 million (equivalent to USD 41 million) as profit during the second quarter of 2020.

The profit recognised included within net other (losses) gains item in the interim condensed consolidated statement of profit or loss.

11- FAIR VALUE MEASUREMENT OF FINANCIAL ASSETS AND LIABILITIES

The Group has assessed that fair values of the financial instruments comprising of trade and other receivables, short-term murabahas, cash and cash equivalents, and trade and other payables approximate their carrying values significantly due to the short maturities of these financial instruments.

The fair value of financial assets and liabilities is recognised as the amount for which the instrument can be exchanged in an existing transaction between willing parties, other than a forced sale or liquidation.

The Group uses valuation techniques appropriate to current circumstances that provide sufficient data to measure fair value. In addition, for the financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- a- Level "1" inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date;
- b- Level "2" inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- c- Level "3" inputs are unobservable inputs either directly or indirectly.

The following table shows the fair values of the Group's financial assets and liabilities that were measured at fair value:

		Fair valu	e as at
	Fair value measurement		
_	hierarchy	31 December 2020	31 December 2019
Financial assets			_
At fair value through profit or loss: stc Ventures Fund and STV LP Fund	Level 3	1,119,413	1,550,869
Financial liabilities At fair value through profit or loss:			
Derivative liabilities	Level 2	9,882	7,373

The fair value of the Group's investment in the units of stc Ventures Fund and STV LP Fund (the Funds) is obtained from the net asset value (NAV) reports received from the Funds' managers. The following is a reconciliation of the Group's investment in these Funds which are categorised within Level "3" of the fair value hierarchy:

	2020

Contributions paid to the funds during the year	375,700

18- ZAKAT AND INCOME TAX LIABILITIES

The Group submitted all zakat returns until the end of 2019, with payment of zakat due based on those returns, and accordingly the Group received zakat certificates for those years. Effective from year 2009, the Group started the submission of consolidated zakat return for the Company and its wholly owned subsidiaries whether directly or indirectly this is in accordance with the executive regulations for collecting zakat.

The Group submitted objections related to the years 2008 and 2009 and these objections are still being considered by the General Secretariat of Tax Committees (formerly the Appeal Committee) until the date of preparing these interim condensed consolidated financial statements. These Zakat disputed differences were essentially a result of the comparison between Zakat base and the adjusted profit whichever is higher. The Group believes that the result of these above-mentioned objections will be in its favour and no material additional provisions are required.

The group also reached a final settlement with General Authority of Zakat and Tax (GAZT) in regards with the objections submitted on zakat assessments for the years 2014 and 2018 by paying an amount of SR 205 million.

The group has also received zakat assessments that include differences related to the zakat declarations submitted for the years from 2015 to 2017 amounting to SR 865 million, and the group will object to them within the statutory deadline.
