Business Highlights

- ✓ stc Group released its 2024 Sustainability Report, highlighting progress across environmental, social, and governance priorities. The group reduced Scope 1 emissions by 3.6%, Scope 3 emissions by 14.6%, and energy intensity by 9.8%, while maintaining a 90% Saudi nationalization rate and a workforce representing 61 nationalities. Additionally, 96% of procurement was local, supporting the Saudi economy and digital transformation. These achievements reflect stc Group's commitment to environmental performance, human capital development through digital innovation, and strong governance.
- ✓ Tali Ventures, the corporate venture capital arm of stc Group, has led a strategic funding round in Tarmeez Capital, one of Saudi Arabia's fastest-growing fintech firms in the sukuk and debt instruments sector, which plays an increasingly important role in deepening the Kingdom's capital markets. The investment aligns with stc Group's broader strategy to support high-growth digital platforms shaping the future of finance and to strengthen the Kingdom's financial ecosystem.
- ✓ stc Group has unveiled its latest wireless communications network, the Business Critical Network, designed to transform connectivity for Saudi Arabia's most critical sectors. As one of the first networks of its kind in the Kingdom, it delivers high-speed, high-availability, and encrypted communication, empowering industries to operate with unmatched efficiency and resilience. The network is built for the future, offering seamless adaptability and compatibility with emerging technologies such as artificial intelligence, edge computing, and the Internet of Things (IoT).
- ✓ stc Group has announced a significant rise in its local content reaching 50.70% for 2025, with total annual spending of \$21.31 billion. This milestone highlights stc's commitment to enhancing local content and establishing it as a key driver of sustainable growth in the telecommunications and IT sector. The achievement is a direct result of the "Rawafed" program, stc's strategic initiative to maximize local spending, foster innovation, develop local talent, and attract investments.
- ✓ center3 is implementing a major expansion plan for its data center capacity, aiming to reach 1 gigawatt by 2030 to support the growth of artificial intelligence, cloud computing, and major tech companies (hyperscalers) in the MENA region. center3 has previously invested \$11.25 billion and plans to invest an additional \$37.5 billion to reinforce Saudi Arabia's position as a leading digital hub, in line with Saudi Vision 2030.
- ✓ stc Group and Huawei have successfully trialed an ultra-high-speed optical solution capable of delivering data transmission speeds of 2.4 terabits per second (Tbps). As the first operator globally to deploy this cutting-edge solution, stc Group is establishing a pivotal foundation for Saudi Arabia's transformation into a premier global digital hub. As Saudi Arabia undergoes rapid digital transformation, the demand for Peta bps-level data transmission is surging, driven by data-intensive industries and advanced computing applications. Leveraging Huawei's next-generation optical transport platform OptiX OSN 9800 K12, the solution achieved a single-fiber capacity to 96Tbps while delivering 2.4Tbps per port, equipping the Kingdom to address the growing demands of advanced digital services over the next decade.
- ✓ stc Group has won the Platinum Operator Award for Esports for the first half of 2025, marking its ninth consecutive win. Recognized for its leadership in supporting digital transformation and the Esports sector, stc Group's advanced digital infrastructure, smart data centers, and efficient networks enable high-performance gaming and viewing experiences. The Group also played a key role in the world's largest Esports event, using AI-driven solutions to ensure network stability and fast response times. This reflects stc Group's commitment to strengthening the Esports ecosystem and positioning the Kingdom as a leading regional hub, with the tournament drawing significant global engagement.
- ✓ stc Group has introduced "sccc by stc" as the new identity for its cloud service subsidiary, known as the Saudi Cloud Computing Company (sccc). This new identity emphasizes the company's commitment to empowering Saudi Arabia's key sectors with hyperscale cloud infrastructure and secure, locally hosted solutions. Established in 2022, sccc by stc offers an extensive portfolio of advanced global cloud services, with over 100 local cloud products across Infrastructure as a Service (IaaS), Platform as a Service (PaaS), and Software as a Service (SaaS) models, serving public and private organizations. These services provide flexible infrastructure, streamlined development tools, and ready-to-use software within a scalable, cost-effective, and integrated ecosystem.
- ✓ Red Sea Global (RSG), the developer of regenerative tourism destinations The Red Sea and AMAALA, has announced a landmark agreement under which stc Group will invest over \$1.2 billion to expand digital infrastructure and services across RSG's resorts and communities. Building on their strong partnership, stc will deliver next-generation connectivity and ICT solutions, including high-speed networks, resilient backup systems, AI-driven services, cloud-based operations, advanced analytics, enhanced cybersecurity, and state-of-the-art data centers.
- ✓ center3 has signed a strategic framework agreement with HUMAIN, a Public Investment Fund (PIF) subsidiary, to advance the Kingdom's ambition of becoming a global AI hub. Through this partnership, HUMAIN will leverage center3's infrastructure and secure connectivity to national and international networks. This foundation will power HUMAIN's full-stack AI ecosystem and support its goal to operate across the entire AI value chain — from infrastructure and cloud services to data, models, and advanced applications.
