Independent Auditors' Review Report on The Interim Condensed Consolidated Financial Information

To the Shareholders
Saudi Telecom Company
(A Saudi Joint Stock Company)
Riyadh, Kingdom of Saudi Arabia

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Saudi Telecom Company (“the Company”) and its subsidiaries (together “the Group”) as at 31 March 2026, and the related interim condensed consolidated statements of profit or loss and comprehensive income, changes in equity and cash flows for the three-month period then ended, and the explanatory notes (“the interim financial information”). Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 – Interim Financial Reporting (IAS 34) that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410 – “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with IAS 34 that is endorsed in the Kingdom of Saudi Arabia.

15. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

The Group uses valuation techniques appropriate to current circumstances that provide sufficient data to measure fair value. In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for valuing the asset or liability, either directly or indirectly.

The fair values of financial instruments represented in trade and other receivables, short-term murabahas, cash and cash equivalents, and trade and other credit payables closely approximate their book value due to their short maturity.

Financial assets and liabilities measured at fair value:

15. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (CONTINUED)

The following methods / assumptions were used to estimate the fair values:

1. Fair value of equity instruments at level 1 is based on quoted market price at the reporting date.
2. The fair value of financial derivatives - options were estimated by using Black Scholes Model. The significant observable inputs are the volatility of share prices and interest rate.
3. The fair value of the non-current liability resulting from the put option to non-controlling interest shareholders has been determined within level 3 utilizing discounted cash flow method.
4. The fair value of the Group's investment in funds is obtained from the net asset value ("NAV") reports received from the funds' managers. The funds' managers deploy various techniques (such as recent round of finance, discounted cash flow models and comparables method) for the valuation of underlying financial instruments classified under level 3 of the respective fund's fair value hierarchy. STV fund represents the majority of Group's investment in funds with carrying value of ~~SR~~ 4,744 million as at 31 March 2026 (31 December 2025: ~~SR~~ 4,749 million). Significant unobservable inputs embedded in the models used by the STV fund's managers include multiples, WACC, exit multiple and lack of marketability.

The following is a reconciliation of the Group's investment in these funds which are categorized within Level "3" of the fair value hierarchy:

	31 March 2026	31 December 2025
Net assets value at beginning of the period / year	5,137,979	4,063,687
Contributions paid	11,856	364,222
Proceeds from investments liquidation	-	(19,943)
Net unrealized (losses) gains recognized in profit or loss ^(*)	(7,851)	730,013
Net asset value as at ending of the period / year	5,141,984	5,137,979

(*) The net unrealized (losses) gains recognized were included within net other gains (losses) item in the statement of profit or loss.

5. During the year 2024, the Group entered into an Islamic Cross Currency Profit Rate Swap arrangement with a notional amount of EUR 1,470 million (USD 1,600 million) to hedge the EUR foreign exchange exposure arising from a EUR functional currency subsidiary and the floating profit rate exposure on a USD-denominated borrowing. Under this arrangement, the Group receives USD and pays EUR. This financial instrument was designated as a hedge instrument protecting the Group from the fluctuations in the EUR net asset position due to movement in EUR/~~SR~~ exchange rates (net investment hedge) and movement in the Term SOFR rates (cash flow hedge). The Group recognizes the change in fair value of the hedging instrument in other comprehensive income for the effective portion and in profit or loss for the ineffective portion. The fair value was estimated using appropriate valuation techniques based on the forward profit and currency rates in Bloomberg portal.
