Riyadh, Kingdom of Saudi Arabia

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Saudi Telecom Company ("the Company") and its subsidiaries (together "the Group") as at 30 September 2026, and the related interim condensed consolidated statements of profit or loss and comprehensive income for the three-month and nine-month periods ended 30 September 2026, and the related interim condensed consolidated statements of changes in equity and cash flows for the nine-month period then ended, and the explanatory notes ("the interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 – Interim Financial Reporting (IAS 34) that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410 – *"Review of Interim Financial Information Performed by the Independent Auditor of the Entity"* that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with IAS 34 that is endorsed in the Kingdom of Saudi Arabia.

The Group maintains a robust and flexible operating model to manage potential risks effectively, while continuously assessing any possible impacts on its business operations.

2. BASIS OF PREPARATION AND CONSOLIDATION

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" that is endorsed in the Kingdom and other standards and pronouncements that are endorsed by the Saudi Organization for Chartered and Professional Accountants ("SOCPA") ("IAS 34").

The Group has prepared the interim condensed consolidated financial statements on the basis that it will continue to operate as a going concern.

The interim condensed consolidated financial statements are presented in Saudi Riyals ("﷼"), which is the functional currency of the Company, and all values are rounded to the nearest Saudi Riyals thousand, except when otherwise indicated.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements in accordance with International Financial Reporting Standards ("IFRS" Accounting Standards) and other standards and pronouncements that are endorsed by the Saudi Organization for Chartered and Professional Accountants ("IFRS endorsed in the Kingdom"). Therefore, these interim condensed consolidated financial statements should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2025.

3. THE GROUP'S MATERIAL ACCOUNTING POLICIES AND SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The material accounting policies and significant accounting judgements, estimates and assumptions adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025.

The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective, the Group intends to adopt these new standards and amendments, if applicable, when they become effective. These standards are not expected to have a material impact on the Group at their effective dates, except for the International Financial Reporting Standards 18 "Presentation and Disclosure in Financial Statements" (IFRS 18), which the Group continues to evaluate the impact of its adoption on the interim consolidated financial statements. The major changes introduced by IFRS 18 standard include introduction of specified categories and new defined subtotals in the statement of profit or loss and consequential amendments to the statement of cash flows.

Under IFRS 18, specific guidance is provided for the classification of income and expenses in newly introduced operating, Investing and financing categories. Based on the on-going evaluation of the Group, the main expected changes will be as follows:

- Reclassifying cost of early retirement to be above the Operating Profit.
- A new subtotal before Financing cost – profit or loss from operating and investing activities.
- Disaggregating certain profit or loss statement line items into new categories under IFRS 18.

IFRS 18 also requires disclosure of certain subtotal of income and expenses that are used in public communications outside financial statements ('management-defined performance measures' or MPMs) in a single note to the consolidated financial statements. The Group will determine the applicable MPMs based on the public communications of the Group that will be available at the time of implementing IFRS 18 for the reporting periods beginning on 1 January 2027.

There are new standards and amendments to standards which are effective from 1 January 2026 but they do not have a material effect on these interim condensed consolidated financial statements.

15. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

The Group uses valuation techniques appropriate to current circumstances that provide sufficient data to measure fair value. In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for valuing the asset or liability, either directly or indirectly.

The fair values of financial instruments represented in trade and other receivables, short-term murabahas, cash and cash equivalents, and trade and other credit payables closely approximate their book value due to their short maturity.

Financial assets and liabilities measured at fair value:

15. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (CONTINUED)

The following methods / assumptions were used to estimate the fair values:

1. Fair value of equity instruments at level 1 is based on quoted market price at the reporting date.
2. The fair value of financial derivatives - options were estimated by using Black Scholes Model. The significant observable inputs are the volatility of share prices and interest rate.
3. The fair value of the non-current liability resulting from the put option to non-controlling interest shareholders has been determined within level 3 utilizing discounted cash flow method.
4. The fair value of the Group's investment in funds is obtained from the net asset value ("NAV") reports received from the funds' managers. The funds' managers deploy various techniques (such as recent round of finance, discounted cash flow models and comparables method) for the valuation of underlying financial instruments classified under level 3 of the respective fund's fair value hierarchy. STV fund represents the majority of Group's investment in funds with carrying value of ﷼ 4,959 million as at 30 September 2026 (31 December 2025: ﷼ 4,749 million). Significant unobservable inputs embedded in the models used by the STV fund's manager include multiples, WACC, exit multiple and lack of marketability.

The following is a reconciliation of the Group's investment in these funds which are categorized within Level "3" of the fair value hierarchy:

During the year 2024, the Group entered into an Islamic Cross Currency Profit Rate Swap arrangement with a notional amount of EUR 1,470 million (USD 1,600 million) to hedge the EUR foreign exchange exposure arising from a EUR functional currency subsidiary and the floating profit rate exposure on a USD-denominated borrowing. Under this arrangement, the Group receives USD and pays EUR. This financial instrument was designated as a hedge instrument protecting the Group from the fluctuations in the EUR net asset position due to movement in EUR/﷼ exchange rates (net investment hedge) and movement in the Term SOFR rates (cash flow hedge). The Group recognizes the change in fair value of the hedging instrument in other comprehensive income for the effective portion and in profit or loss for the ineffective portion. The fair value was estimated using appropriate valuation techniques based on the forward profit and currency rates in Bloomberg portal.
